

Learning Conversations

week ending 22.09.23

This week we have continued reading the story Ug by Raymond Briggs. Why does Ug want a pair of material shorts do you think? Convince your parents that fabric is better than stone, giving reasons for your persuasion.

Year 2 – practice counting forwards and backwards in tens from zero.

Year 3 – practice counting forwards and backwards in hundreds from different starting points, for example 12 or 34 or 123.

Our history learning this half-term is all about the Stone Age to Iron Age.

What can you find out about this period in history? Record the facts however you like and bring your work into school when finished.
