

Learning Conversations

week ending 29.09.23

This week we finished reading the story Ug by Raymond Briggs.
If you were Ug what would you create to make life easier and to help with your survival?

Year 2 – practice counting forwards and backwards in tens starting from any 1-digit number.

Year 3 – practice counting forwards and backwards in ones, tens and hundreds from different starting points, for example 12 or 34 or 123.

Our history learning this half-term is all about the Stone Age to Iron Age.

What can you find out about **Stonehenge**?
Record the facts however you like and bring your work into school when finished.
