

Learning Conversations

Week ending 18.09.26

English

This week we have discussed how to write a paragraph that gives the feeling of tension, the feeling of anticipation that something terrible is about to happen. Have you read any stories recently where you have felt that exact feeling? If so, please bring into school to share with the class.

Maths

Year 3 - How many 3 digit numbers can be made with just these digits? 4, 9, 6,
Please solve using a methodical approach.

Year 4 – How many 4 digit numbers can be made with just these digits? 4, 9, 6, 3
Please solve using a methodical approach.

Geography

Find your home address and look carefully at what each line represents. Can you find your house name or number? Can you find your county? What letters and numbers make up your postcode? Talk with a grown up about what each line means. For an extra challenge, have a go at sending a friend or family member a letter and write out their address carefully on the envelope!
