What would be your final words/sentence to the king?

Would you make it a question of exclamation sentence?

**Can you work out these dividing questions showing both the grouping and sharing method?**

**$10 \div 5$  (10 into groups of 5)  
(10 shared between 5 groups)**

**$12 \div 2$  (12 into groups of 2)  
(12 shared between 2 groups)**

Thinking about what continents your friends and family have been to, can you look at them on a map and work out if it is a hot or cold climate based on the Equator line?
