

# Learning Conversations

Can you think of as many compound words possible? Eg, **dragon + fly = dragonfly**

**Can you work out the doubles and halves of these numbers?**

Double 5

Half of 6

Double 4

Half of 8

**Ext: What would be the multiplying and dividing number sentence of these?**

When you go out and about, look closely at different buildings and houses, what clues can you find to show they might be from the past?  
**Is your house from the past? Has it got any of the Victorian features?**
