

We are delighted to be welcoming back all of the children this week for the summer term and hope that you all had a lovely Easter break. We will be asking the children to share their news from the holiday and then discuss the big news of the Artemis II journey around the moon. For Drawing Club this week we will use the story *How to Catch a Star* for inspiration linked with space.

This term will be starting a new topic called *In the garden*. Please discuss all the plants you may have in your garden or those you see when on a walk. Also, please discuss what may be living in our gardens; insects, birds and mammals.

This week

Our main text is *The Extraordinary Gardener*. The children will become gardeners, spending time planning and planting our raised beds at school. As well as plants, our topic will look at mini-beasts (bugs and insects) and other animals that live in our gardens. This week, we will be planting sunflower seeds and will see who can grow the tallest sunflower. We will use sunflowers as our inspiration for our art work too. The children will also learn about the many uses of some plants.

Special Request

If you have any seeds / seedlings / compost etc you would like to donate to our class garden that would be wonderful.

Thank you for your support. Mrs Clarke, Miss Tonkyn and Mrs Upfold.
